

ABOUT US

PrymeFix is the fixturing line for PrymeTech, a leading manufacturer of CNC machined components and sophisticated metrology fixturing solutions.

PrymeTech offers an extended machine shop without the headaches of overhead and maintenance. Our experienced staff can take a product from concept to creation. We understand what it takes to design, manufacture and inspect product. We combine innovative design solutions with state of the art machining technologies to provide our customers with high quality precision CNC machined component parts for a wide variety of industries. Established in 2006, our shop includes all of the amenities expected to be found in a modern day shop. Every tool and machine has been strategically placed to make our facility as efficient as possible. Our shop stays highly organized based on industry concepts like Kanban and 5-S. Our staff includes experienced machinists as well as highly educated engineers. Working together as a team, we have fully integrated proven machining techniques with state of the art technology. Computer Aided Design (CAD) and Computer Aided Machining (CAM) is utilized on a daily basis to ensure product accuracy. At PrymeTech, we expect the best from our employees. Our customers see the difference.

PrymeFix

CORNERS

CORNER NESTS

Magnetic Corner Nests create a repeatable positioning system on your measurement device. They mount directly to your measurement system stage. Three (3) fine adjust ball nose set screws allow for exact positioning. Designed to perfectly hold a PrymeFix Insert.

CORNER INSERTS

Corner Inserts snap into any PrymeFix Corner Nest. Just like the Nest, Corner Inserts are magnetic and snap to any PrymeFix Insert plate. Corner Inserts are designed to allow an object to be visible inside the field of view for vision systems, but can be used as an accessory on any measurement system!

UNIVERSAL CORNER NESTS

The Universal Corner Nest is an alternative solution to PrymeFix's traditional Corner Nest and Insert Solution. By allowing the Corner Puck to slide along a Guide Rail, this solution allows for custom spacing based on a specific machine stage layout. This results in a virtually unlimited amount of solutions and can be used on nearly any system!

All PrymeFix Corners are magnetic to securely hold both our Aluminum and Acrylic Inserts!

For more details and a complete product listing, check out the PrymeFix website!
